

Our team specializes in preventive medicine and Internal Medicine primary care for adult patients with a wide variety of health problems.

We work together to provide every patient with the best care possible. We collaborate with health professionals across many health care disciplines. We also work with sub-specialists in all medical and surgical specialties who are available when needed.

WHAT WE SEEK

Patients who are actively engaged in their own health and health care, committed to wellness, and responsive to preventive health strategies and an overall focus on wellness. And patients at any point in their life journey who are open to moving that direction.

WHAT WE WILL DELIVER

- Team based care and care coordination.
- Excellent communication, expanded hours, same and next day appointments.
- Excellent communication includes person to person during clinic visits, but also quick response to phone calls and electronic My Chart questions.

Hennepin Healthcare System Mission

We partner with our community, our patients and their families to ensure access to outstanding care for everyone, while improving health and wellness through teaching, patient and community education, and research.

Our Vision

Transforming the health of our community—exceptional care without exception

Our Values

Patient & Family Centered
Excellence
